

DUSHYANTH RAMALINGAM

OmniFDE Consultant | Practice Head — AI & Hyperautomation | Agentic AI Systems | Gen AI Engineer | Founder @AiSensei

Kuala Lumpur, Malaysia · +60 17 275 0818 · ddrdushy@yahoo.com · linkedin.com/in/ddr-dushy · github.com/ddrdushy · ddrdushy.github.io

SUMMARY

Technology leader with **15+ years** from hands-on engineering to leading a global AI & Hyperautomation practice. Architect of **agentic AI systems** that fuse RPA with Generative AI — local RAG, vector search, computer vision and LLM orchestration. Delivered **100+ automated processes** and **USD \$4M+ in verified savings** for **20+ clients** across Asia, the Middle East and the US. Launched two AI products (**HireOps AI**, **ZeroKey**), builds open-source platforms such as **Codanium**, and has published **33 articles** on enterprise AI and careers. Founder of **AiSensei**.

EXPERIENCE

Capability Lead — AI & OmniFDE

Nov 2023 — Present

Symprio · Malaysia

- › Lead the Automation Practice — global strategy and delivery for 20+ clients across Asia, the Middle East and the US.
- › Manage a 6+ member team across advanced RPA and custom AI development, including local RAG systems.
- › Personally drive solution design, MVP creation, consulting and training for all major automation initiatives.
- › Partner with senior business and IT stakeholders to align automation with digital-transformation goals.

RPA Project Manager (Contract)

Jun 2024 — Jun 2025

Generali Malaysia · Insurance

- › Led key RPA programs in the insurance domain, improving process efficiency and team alignment.
- › Worked cross-functionally with operations, IT and change management to raise automation throughput.
- › Mentored developers and business stakeholders, lifting the organisation's automation maturity.

Automation Solution Architect

Jan 2020 — Nov 2023

Symprio · Malaysia

- › Architected enterprise-scale automation; helped build and scale the company's Automation Centre of Excellence.
- › Established governance, operating models and delivery frameworks for sustainable, large-scale automation.

RPA Engineer

Jun 2017 — Dec 2019

KGISL GSS · India → Malaysia

- › Mastered UiPath and relocated to the Malaysian client site within two weeks of joining; grew the account through delivery trust.
- › Hybrid BA / solution architect / developer — delivered and oversaw 100+ automated processes.
- › Built a foundational RPA framework for a key insurance client that remains in production today.
- › Pre-sales engineer across BFSI, logistics and aviation; delivered formal UiPath training to a major airline.

JavaScript Developer (Internship)

2017

KGISL IAS · India

- › Built a Queue Management System end-to-end in 3 months as sole BA, designer, developer and tester.
- › Integrated a custom Slack bot for automated answers; served as Master's final-year project.

Linux Administrator (Part-time)

Jan 2012 — 2016

Caliber Interconnect Solutions · India

- › Ran complete IT infrastructure for a 250-employee organisation — mail, FTP and chat servers, org-wide firewall.
- › Wrote shell scripts for server monitoring, protection and automated alerting to ensure high availability.

PRODUCTS & PROJECTS

- › **HireOps AI** (live, hireops.symprio.com) — AI recruiting OS: classifies applications, scores resumes with evidence, runs Q&A and ElevenLabs voice interviews. Built on Mistral AI; first built at the Mistral AI Hackathon 2026.
- › **ZeroKey** (live, zerokey.symprio.com) — LHDN MyInvois e-invoicing for Malaysian SMEs: any-format intake, AI extraction and validation, signing with the customer's LHDN certificate and submission.
- › **Codanium** — AI software-delivery platform where 24 specialised agents cover the SDLC (Next.js, Prisma, PostgreSQL, BullMQ; Tauri desktop client). Open source.
- › **Teman** — free companionship platform for Malaysia's elderly, caregivers and volunteers; PWA, solo build. **PettahPro** — cloud accounting SaaS for Sri Lankan SMEs.

- › **symprio.com** — designed and built the corporate site for Symprio's AI & automation business.

WRITING & COMMUNITY

- › **Symprio Insights** — 22 articles on OmniFDE, AI total cost of ownership, sovereign AI, testing AI products and agentic automation (symprio.com/blog).
- › **Dushy from the Field** — LinkedIn newsletter; 11 essays on learning, careers and building with AI.
- › **AiSensei** — founder of the AI education channel on YouTube (@AiSensei_MY).

SKILLS

AI & Agentic	Agentic AI development · Generative AI · RAG · LangChain · Vector DBs · LLM orchestration · Computer Vision (YOLO) · Prompt engineering · Mistral · ElevenLabs · MCP
Hyperautomation	UiPath · Power Platform · Power Automate · RPA architecture · n8n · Zapier · Abbyy · Process assessment
Engineering	Python · TypeScript · Next.js · React · Node.js · PostgreSQL · Prisma · Tauri · MongoDB · Git / CI · Linux
Leadership	Solution architecture · CoE build-out · Pre-sales · Training & mentoring · Project delivery · Stakeholder management

EDUCATION

- › **Master's, Computer Software Engineering (MCA)** — KGiSL-IIM, India · 2015–2017 · *KGiSL Achiever award*.
- › **BCA, Software Development** — Kongunadu Arts & Science College, India · 2012–2015.
- › **Business / Commerce** — K/Hindu National College, Sri Lanka · 2007–2012.

CERTIFICATIONS & LANGUAGES

- › **UiPath Orchestrator Certification** — v2017.1 and v2016.2.
- › **Languages** — Tamil (native), English (professional), Sinhala (limited working), Japanese (elementary).
